III. Conclusion

In Colonial Mentality Impeding Pakistan's Progress?

III. Conclusion:

The persistence of colonial mentality in Pakistan, as exemplified by the roles played by bureaucracy, police, judiciary, feudalism and the educational system poses significant challenges to the nation's progress. Bureaucrats' luxurious lifestyle and immunity from accountability ~~has~~ left them above law just like colonial masters did. Also the repressive role of the police force and have always been used them against protestors reflect the colonial mentality that impedes our progress. Similarly, hierarchical structure of courts and decisions influenced by ruling elites highly depict colonial system in Pakistan. Moreover, suppressing the have nots to progress, manipulating democracy for power control, military interventions in civil affairs and preference given to english language in our educational institutes manifest the colonial mentality that equally contribute in hampering the Pakistan's prosperity. But, it is never too late to pledge for a new change to create a new tomorrow. Where there is a will there is always a way, regardless of the obstacles and hindrances we can definitely achieve our goals.
