

Wrong is wrong even when everyone is doing it; right is right even when no one is doing it

(A) Introduction;

Nature of right and wrong is constant. Wrong is always wrong whether everyone is doing it by considering its tradition or economically beneficial.

Right can not be neglected even popular opinion is against of it.

Right should always be promoted over wrong.

(B) Recognizing the importance of right over wrong;

(C) Nature of right and wrong is always constant;

(a) Wrong is always defeated by the truth and right

Case in ~~Story~~ Point: Pagans of Makkah

— 1 — 1 — but

were against Prophet (P.B.U.H) but
he defeated them with right.

(b) Wrong is always wrong even
when it is economically beneficial

Case in point: Slavery in USA was
economically beneficial for Southern
States, but it was abolished
because it was wrong

(c) Right man always supports right
things even if he has to go against
his family

Case in point: People worshipped idols
in the age of Hazrat Ibrahim
and even his father was against
him but he stood with right.

(d) Injustice is wrong even a large
number of people is supporting it

Case in point: Rosa Park refused to
leave the bus seat on the
basis of racial injustice which

led to civil rights movement in America

(e) Wrong can not be justified on the basis of popularity,

Case in point: People stood against Holocaust even Nazis were popular at that time

(f) Right can not be neglected even it is against the traditions

Case in point: Sati practice in India was against human rights

(g) It is not denied that majority can be wrong

Case in point: Socrates drank hemlock and with the passage of time he was proved right against majority

(h) Cultural practices followed by majority can be proved wrong

— 1 — 1 — 65

case in point: Foot binding practice in China was the symbol of beauty but was harmful and painful for women

(D) Importance of right over wrong

(a) Promotion of right over wrong is important to promote human rights

(b) Right is imperative to ensure justice

(c) Right is cardinal to (neglecting) wrong practices

(E) Conclusion;

Essay

Nature of right and wrong is constant. Wrong is always wrong whether everyone is doing it. by considering it traditional or economically beneficial. Right can not be neglected even popular opinion is against of. Right should always be promoted over wrong.

It is very hard to be right when majority is wrong. Malala Yousafzai stood against the extremism and those who were against girl's education and she faced attack on herself. It was very difficult for her to be right when everyone was doing wrong there. Wrong is always defeated by the right and truth. Wrong is wrong even it is economically beneficial and majority in public is supporting it. Right people always support right thing even they go against their family and even it is harmful for them. Injustice can not be considered as right even people are supporting and sponsoring it. Wrong can not be justified on the basis of popularity and public opinion. Right can not be neglected even it is against traditions and majority. because cultural

practices followed by majority can also be proved as wrong act. Right is important over wrong because it is imperative to promote human rights and justice. Right is cardinal to neglect wrong practices.

Right is imperative than wrong. Right can not neglected even noone is doing it. Right can not be justified on the basis of people following it. Wrong is always defeated by the right and truth. wrong can be beneficial in terms of economy but it is not a justification which can prove wrong as right. It can be hard to be right when majority is wrong.

Some people consider wrong as right only on the basis of public opinion but there are many examples where public opinions were proved wrong and minority was proved right. Right

— 1 — 1 — but

is cardinal over wrong because right always promotes justice and human rights.

Nature of right and wrong is constant, because wrong is always defeated by the truth and right.

Right is always prioritized over wrong whether is followed by majority or minority. In the age of ignorance, Pagans of Makkah were in majority. They were worshipping the idols. Allah sent Hazrat Muhammad (P.B.U.H)

who was alone between them but

with the help of Allah, Prophet (P.B.U.H) proved them wrong and

stood firmly against them. Right is

always right whether anyone is

sponsoring it or not. Wrong can

be followed by many but still

it will be called wrong. Right

can not be replaced by wrong

because wrong is always wrong.

_ / _ / but

wrong is always wrong even when it is economically beneficial. There are many examples which are stood as paragons because ~~instead~~ the practices instead of being beneficial economically, were abolished. Slavery in USA was against human rights but it was imperative for Southern states but people came together against. Slavery was also the major reason behind civil war in America but still it was abolished to restore the human right in United States.

wrong can not be promoted on the basis of profit and advantage. Wise people can be judged on the basis of their choice of right and wrong.

Right man always supports right things even if he has to go against his family and friends. Haasat

//_:but

Ibrahim went against his father and his people who worshipped idols and rejected on God, when Hazrat Ibrahim went against them. They punished him by throwing him into fire but after sometime he was proved right. Right things always demand important things from a right person but right always shows a person right path. Right has major importance than wrong. Right is right in sense of spirituality to socially.

Injustice is wrong even a large number of people is supporting it. Sometimes it is seen that people support popularity instead of right things. Even after abolishing slavery, blacks faced discrimination and they were not allowed to sit in the front row of bus when on a morning when a black lady, Rosa Park was sitting in the front row and she was asked to leave the seat

1-1-2025

but she refused and it led to a civil right movement. It led to equal human rights for black people. It can be seen that, it is very hard to be right when most of the people are against the right ones. It is cardinal to be with right to make righteous and correct decisions.

Wrong can not be justified on the basis of popularity and public opinion. Time can prove public opinion wrong. During second world war, Holocaust was done but people spoke against it. It was seen that Nazi party was the most popular party but its popularity does not stop it from being criticized because it was considered as against the human rights. Wrong is always wrong and injustice is the form of wrong whether it is justified

by large number of people or
not-wrong and injustice can not
be proved ~~wrong~~ right with wrong
evidences.

Right can not be neglected
even it is against the traditions.

Sati was the practice in Hindu
tradition. In sati practice women
were burnt with the corpse of
their husbands. It was their tradition
but it is a wrong practice because
every human has the right to
life. Any practice based on traditions
can not be justified as right
only because it is ~~just~~ tradition.

Right is always right whether
is followed or not. Wrong practices
can not become right whether
is followed by majority or not.

It is not denied that majority
can be wrong. Majority can also

also follow wrong practices. It is sometimes gauded that majority has authority. It can be correct that majority has authority but it is seen that majority was wrong. The great philosopher Socrates took hemlock because majority was against him but with the passage of time Socrates was proved right against majority. Majority can be wrong. Wrong is always wrong even every single person is sponsoring it.

Cultural practices followed by majority can be proved wrong. There are many cultural practices which are harmful. Foot binding practice in China was considered as standard of beauty but it was painful for women and caused disability. It was culture but harmed women therefore, it can not be right. There are more practices

— 1 — 1 — but

like wani in Punjab where women has to pay herself for familial Feuds but it is can not be justified as it is against the human right.

Right is important than wrong because it is imperative to promote right over wrong. because Right is cardinal to promote human rights in the world. Since the inception of this world, human rights are the course of study for many and wrong can not promote human rights. So it can be seen that - only right acts can promote human rights. The abolishment of many wrong practices is the indication of win of right over wrong.

Right is imperative to ensure

— 1 — 1 — but

justice. In Quran Allan has stated that "If you judge, judge between equitable" so, it is clear that to ensure justice, it is imperative to follow the right acts. To make the society prosper, it is important to have justice in the society but only right can ensure justice.

Right acts are cardinal to neglect wrong practices. Since the start of humanity, everything wrong that had happened was neglected by right acts. People considered wrong as correct but right has proved that wrong is always wrong. Right is always proved right whether it has taken time or not. Righteous acts are more beneficial than wrong deeds in this world and hereafter. Wrong practice harms society in every way of life.

In a nutshell, it can be considered that right can not be called wrong even noone is following it. Wrong acts always try to keep man away from the ideology of his life but right always tries to keep man close to his origin. The creation of man is based on right so, it is human instinct that he can go on wrong side but nature always tries to keep it close to right.
