Examination 1979

Social Morality

Only the morality can guarantee the security and survival of humans. But its development is a challenge for educational institutions. Conventionally, social morality was connected with religion and churches. And their failure results in increase in lust for wealth and God is Dead theological rhetoric. oversimplification of social morality increase ^{probability of} nuclear destruction.

Thus, we must expect that educational institutions can instill moral sensitivity in human function by giving them confidence to love.
