HIGHER EDUCATION ILLS AND REMEDIES

Higher education faces various ills, including accessibility and affordability issues, rising student debt, limited job prospects and skills mismatch, inefficient teaching methods, limited faculty diversity and development opportunities, outdated curriculum, mental health concerns, and corruption, which can be remedied by increasing funding and scholarships, implementing income-based repayment plans, enhancing career counselling and industry partnerships, adopting innovative teaching methods, streamlining administrative processes, providing faculty development opportunities, updating curriculum, prioritizing student mental health resources, investing in infrastructure —
