- (t) Promoting good relations with neighbouring & Islamic countries.
- (u) Promoting investment in high budget projects.
- (v) Promoting restructuring of structural, institutional and economic reforms.

3. Conclusion.

---

## (1) Introduction:-

### (a) Attention grabber:

When the Great Wall of China was constructed, then the attacks from the invaders also increased. Every time the invaders arrived the gates, he would give bribe to the gatekeepers. As a result, the gates were opened without any resistance. So, strong defense does not guarantee strong offense or protection from the outer threats. It is always the moral standing that make the foundation of strong nations.

### (b) Background Information:

Pakistan, officially the Islamic Republic of Pakistan, is a country in South Asia. It is the fifth most populous country, with a population of over 241.5 million, having the second-largest muslim population as of 2023. Islamabad is the nation's capital, while

Karachi is its largest city and financial centre.

These days Pakistan is facing inflation, which is very serious problem for nation. Inflation leads to several issues. We have to overcome all these problems by promoting various pathways that lead Pakistan to prosperity / progress.

(c) Thesis Statement:

There are several pathways for Pakistan's progress which are; promoting education, health facilities, infrastructure, tourism, technology & innovation, industrialization, environment sustainability, economic resources, implementation of law and order, gender discrimination, regional stability, energy sources development, advance and cheap transport system, good governance, job facilities, advance civil structure, say

no to corruption, afforestation,  
organic fertilizers, good relations  
with neighbouring countries, invest-  
ment in high profit projects,  
restructuring structural, and  
economic reforms etc.
