Conclusion

Introduction

If you wish to know how civilized a culture is, look at how they treat it's women. (Abdul Gaffar Khan). This illustrated quote of Abdul Gaffar Khan regarding women is evident to treat women in better way. When it comes women's education, women higher education can change the whole diapa of a society. Therefore, women universities act as agents of change. In all male dominated societies, women are already preferring to send to women educational institutions. Moreover, women universities also provide a safe platform for education of female without religious restrictions. Furthermore, women universities can increase women participation in women higher education and also create jobs for women. Nevertheless, women education or women universities eliminate social disparity between men and women. However, women universities also impact life on different level. For instances, women universities can provide us vigilant economists and aware law makers. Moreover, higher education always brings prosperity in a society. Through women universities, women become more aware regarding their basic rights. In addition, there are diff

event remedies that can enhance the role
 of women education as agent of change.
 Some of them are the following:
 Women Universities must develop in
 in rural areas and encourage
 women towards higher education by
 seminars and advertisements. Moreover,
 the government could reduce and
~~the~~ fully free the women higher
 education cost. In nutshell, Women
 Universities promote women higher education
 despite the numerous obstacles. Moreover,
 Women Universities are impacting
 different sphere of life directly and
 indirectly. However, there are some
 remedies that can further strengthen
 the education of the women.
