Title:

The role of University education in society

The purpose of University education is to impart good manners in <sup>people</sup> person.

It is a balanced approach between social and practical life. It is not restricted in its scope. University life is in fact not a fertile ground for heroes, poets, authors, and leaders. These

specifications are the product of nature. However, university curriculum is crucial for <sup>a</sup> greater end. It teaches ~~such~~ principles of making a pure society. Moreover, it enables one to decide and judge between good and bad. Such analyzing capabilities help one occupy any post and acknowledge any subject.
