~~CCS 2021:-~~

Nizar Hassan, a Palestinian documentary filmmaker produced two documentaries. One was "Independence" in which he explained the irony of Israel, how they have stolen Palestinian land and called it their own Independence.

When the news erupted about a further annexation of Palestine, the author received an email from Nizar Hassan about his film, "My Grandfather's Path".

In this, Nizar praised all sorts of Palestinian art about how it saved him from Israel's behavioral trap due to which one's aspirations and dreams can be forgotten. Nizar's new documentary, according to the author was composed perfectly because it highlighted the pro-Palestinian stance against Israel and should be viewed without any interruption and distraction.
