Q#1 Write a note on "Socrotic Method"

A) Defination:-

Sachotic is an method that *is* used by Sacoraty and it consists of inquiries and instructions to elicit the clear and consitent expression of an idea that is implicitly known by the rational beings.

B) Features of socratic Method:-

a.) Asking question to explicit the contradictions:-

Socrates used series of questions to explicit the contradictions. He then guide the contradictions to solid justificable conclusion. The underlying process of Socrate

theory and tried to refute it

ii- **Generating further premises:-**
Socrates then argued the interlo-cutor by making further premises. that "courage is fine thing, but igno-rant courage is not fine".

iii- **Hypothesis succefully disproven:-**
Socrates then argued and the intelocutor agrees, and the hypo-thesis succefuly disproven. The new new hypothesis will be "courage is not endurance to soul."

iv- **A new better hypothesis formed and the cycle continued:-**
Then a new betler hypothesis formed. like "courage is wise endurance of the soul."

d- Most of Socrates series of examination ends in puzzlement

method is critical analysis and reasoning. He helped to find loops in someone's theory and then patch them up.

b.) Use of elemination hypothesis:-
Socrates used the method of "elemination hypothesis". He tried to find a better hypothesis. by steadily identification, critical ana-lysis and reasoning and eleminate those who contain contradictions.

c.) Steps of Socrates Method:-
Socrates method contain following steps:-

1. Generating hypothesis:-
Socrates conversational partner claims that "courage is endurance to soul". Socrates targets the loops in this
