V- Conclusion

Social media is playing a crucial role in the contemporary world. Due to social media many ~~happy~~^{people} are living a happy life. Arshad Khan "CHAI WALA" is the greatest example of prospects of social media. ~~Likewise~~^{Similarly}, it is also a ~~great~~ source of education and extensive information regarding health and disasters. In addition, promoting democracy is also one of the greatest prospects of social media. Beside this, it has also increased transparency in government institutions. Moreover, it is a source of income for majority of people. However, ~~including many~~^{Despite} prospects it has

Caused many problems for human beings including spreading fake news and propaganda. Moreover, militant groups are using it to spread fear. Likewise, social media is also exposing privacy of people, elevating cyber crimes and publicizing ~~in formal~~ ^{unethical} shows and games that cause chaos in cities. Not only this, it is also increasing racial discrimination. Whereas, there are ways that can alleviate problems of social media. First terrorist hiring on social media should be curbed. Second users of social media should be under strong vigilance. Third people should be aware about advantages and

disadvantages of social media. Last but not least physical sports should be encouraged instead of soft games. In fact, social media has brought many changes in lives of human beings including social, political and economic. However, in the same time it has created much chaos for them.
