<u>Compose outline</u>

AI - A Potential Threat to Mankind.

1. <u>Introduction :</u>

Thesis Statement ; AI has the potential to become a significant threat to humanity if not managed and controlled properly.

2. <u>The Rise of AI :</u>
   a) Rapid progress in recent years
   b) Advancement in machine learning.
   c) Natural language processing
   d) Robotics

3. <u>The Dangers of AI</u>
   a) Job displacement and economic disruption
   b) Bias and discrimination in decision - making
   c) loss of human autonomy <ins>and</ins> control.

d. Cyber attacks and data breaches.

e. Unintended consequences of autonomous → decision-making.

4- The Military Applications of AI
~~a. Potential for AI~~
   (i) Autonomous warfare
   (ii) surveillance, ~~cyber~~
   (iii) ~~war~~ Cyber warfare

b. Ethical concerns ⟨used⟩ of AI in Military contexts.
   (i) Increased risk of human casualities
   (ii) Potential for unintended consequences
   (iii) Concerns about accountability and responsibility.

5. <u>The Potential for AI to Exceed</u>
Human Intelligence
    a) Problem-solving and decision
       making
    b) Pattern recognition and
       analysis
    c) Speed and accuracy

6. <u>Mitigating the Risks of AI.</u>
    a) Developing ethical guidelines
       and regulation
    b) Implementing transparency
       and accountability
       mechanisms.
    c) Ensuring human oversight
       and control
    d) Promoting education and
       ~~this~~ awareness about AI
       risks and benefits

7. <u>Conclusion:</u>
    Restate thesis statement.
