Avoid same

It enhances monotonous expression

(viii) ~~Reforming~~ Remote Areas problems:-

- Should promote transport system there.
- Should build dispensaries.
- Should provide clean drinking water.
- Schools should be built there.

### (ix) Provide active social system:-

- Public should trust one another.
- Unity among people of nation.
- People should respect the laws and orders.
- All citizens should pay their duties.

### (x) Promote tourism:-

- Should provide safe and attractive environment for tourists.
- Should provide transport.
- With the help of social media we can promote tourism.

### (xi) Tackle Extremism and Terrorism:-

- We should tackle extremism by the application of strictly law and order.
- By education.
- By reducing poverty we can reduce terrorism.

### Conclusion:-

- In short Pakistan is full of natural resources, we should have to use these resources carefully/wisely, intellectually by this our country can progress.
