

Use of technology against human life

~~Use of technology against human~~

The new revelation of science and psychology have occurred distortion. The scientists and psychologist have accepted Darwin's theory which is based on physical force. The psychologist has neglected the potential of man's physical self and the world outside over the psyche. This attitude transformed into ~~an~~ economic being and limiting his feelings. The people divided into two categories capitalism and communism by the modern world. Man is powerful by technology. The two world wars destroyed the human life.

The scientist makes weapon and ~~weapons~~ country's leader used ^{weapons} against same species. The role of a scientist, the function of religion and the conduct of politician is directing the future role of man as a species.
