

Comprehension 2018

(1)

Machines have become masters of mankind because man takes care of machines. He charges them, maintains a good temperature and give rest to them. If the temperature is unfavourable, parts are not well lubricated then machines stop working and man has to wait for them. In such a manner, machines are regarded as masters of human beings.

(2)

The more leisure and energy brought by machines is curse because human beings spend that time in making more machines. This time should be spent on nature. So, in this way machines are curse because these are consuming man's time. ✓

(3)

According to author civilization means shaping and linking things in beautiful manner, thinking freely, living rightly and maintaining justice. Yes, I agree with author in a civilized society there is equality, freedom and protection of fundamental rights.

(4)

"Making more beautiful thing" means finding more about universe, removing poverty, finding out causes of disputes between nations.

- Eradicating poverty
- Universal Education
- Peace in the world

For eradicating poverty, I would like to generate employment for all and provide basic skill courses. To provide universal Education, I will make education free to all and for this, will make schools in all areas. I will invite all thinkers of the world and assign them task to find out causes of disputes and solutions. Then will apply those at all levels.

(5)

Poverty can be prevented by:

- Universal quality education
- Corruption free system
- controlling population
- Women Empowerment

Corruption free system would get more attention because it will enable all the solutions to implement properly. Unless, corruption is present all in vain.
