

## Question Number 2

### Precis

#### Title: Differing Reactions to Unhappiness

Being unsatisfied during youth is one of the leading causes of unhappiness, it makes a person hyper focused on achieving. Some resort to distractions from short term relief, such as intoxication. These people become boastful about their unhappiness, which is why they need to be convinced of happiness being desirable. There is a low chance of anyone wanting to stay unhappy if other options are available. Some believe that they have experienced everything and there is nothing to look forward to anymore. This display of intellectual reasoning raises skepticism amongst people regarding the genuinity of sadness, for they believe sadness must be visible.
