

To figure out our flaws, it is necessary to know what our enemies tell about us. Our friends are often commended us same like a way that we are expected them to do so. Maybe, they do not consider our flaws to be our weaknesses, or knowing that would hurt us, they do not expose them, or even just ignore them. On the contrary, our enemy tries his best to identify us and to gather all our flaws even from the core of the earth. Moreover, glorified all those flaws even a little one. Friend always counts his friend's virtue and enemy counts vice. That's why, we have to more thankful to our enemy because he identifies our weaknesses. In this context, an enemy is better than a friend.

In the perception of common men, the laws and the liberty of man are contrary to each other. Seemingly, it is true. Every law imposes some restrictions on citizens. If the number of laws in a country increases, the restrictions may also increase. The liberty of man compromises with unnecessary laws. On the other hand, limited laws provide more liberty to general masses.

Every era brings some matters with itself which are not acceptable to everyone but they have to accept them. However, nature brings such matters in front of us just to test us, even such matters have nothing to do with us, but, still we have to make them as a part of life. Something is going on today. Every century brings such change with itself which is contrary to the former century. The development of science gave a lot of such things to ~~man~~ man which can be termed as the waste of scientific and economic process. Nature gives us a fruit with the knowledge of how to dispose off its peel. If it is not done properly, it impacts our environment negatively.
