V) Conclusion

Technology is the slave of the human, but the overly dependency of people on it makes technology master. Although, it has both advantages and disadvantages, the advantages are more than disadvantages. The benefits of technology in the economic, educational, and political fields make it superior. ~~It~~ In the economic field, it fosters online jobs, in e-commerce sector. Globally, millions of people directly or indirectly are attached with e-commerce sector. Furthermore, in the educational field, technology promotes critical thinking with new ideas through collaboration among global educational institutions. It also provides opportunites ~~of~~ for flexible time periods to those students, who went to continue their education with jobs. Moreover, from a social perspective, it becomes the voice of marginalised community. On the other hand, it has disadvantages too. It leads to the wars of technology among great powers

Date: _____

These great powers want to dominate one another by capturing technology. So, the people are becoming overly dependent on technology due to its huge benefits in economic, education, and social well being, but mishaps in health and great power game are not forgettable.
