

Cybercrime is increasing
national and international
level. Give some measures

Introduction

Cyber Crime is a term in which computer is used as a tool or object for criminal conduct. It is a broader term and encompasses with large number of crime like bank frauds Online crime, hacking, Cyber terrorism. It is widely spread in world and make life stressful.

Humans are not feeling safe while using digital plate form. According to the united nation statement the cyber crime is a electronic operation that is link between computers information hacking.

(2) Background of Cybercrime

The first cyber crime in the history of crime was happened in 1870. A jacquem M was a french Maschom. He form a first computer program, the program was automatically start soon without any human intervention. His servant due to years of job losing start sabotaged. It is first cyber in history.

(3) Definition of Cybercrime

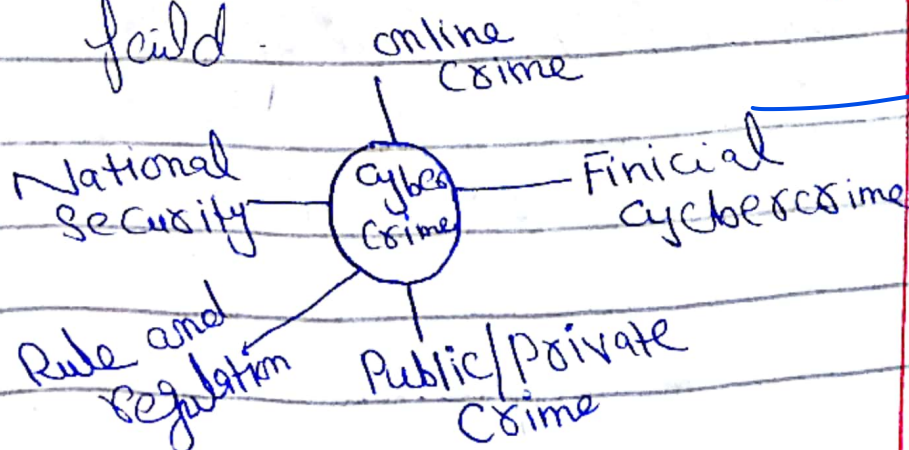

It is a lawlessness in computer information. it is through crime occur in the electronic operation.

For Example

The Nuclear facilities of Iran was hacked in 2010.

(3) Explanation of Crime Expenses through Cyber

In a modern world life is revolve around the technology and digitalization. it has many benefits but also have fault. it contain number of dangers. it has three-dimensional scope. They easily exploited the individuals. it has many field.

(4.1) Financial Crime impact on Society

The are numerous of crime increase which effects the bank status of state regulatory insititutions. The ransomware is a malware which unable the person access on its computer. These types of attack increase in 2020. which effect education, health insitutes. it is greater than 1 billion. Now it may increase

(4.2) Private information leakage also Distracts Government insitutions

The hacking of personal information which is sensitive for goverment insitutes. which is used to blackmail the State and took advantages from this situation.

4.3) National security impact.

The state-sponsored released the information that is private and important for the security of state.

4.4) online crime effects the life of individuals

The online crime increase rapidly. There is a dangerous for personal life. The false links web that are send through false ideas. Disclose them.

4.5) Rule and law legislative

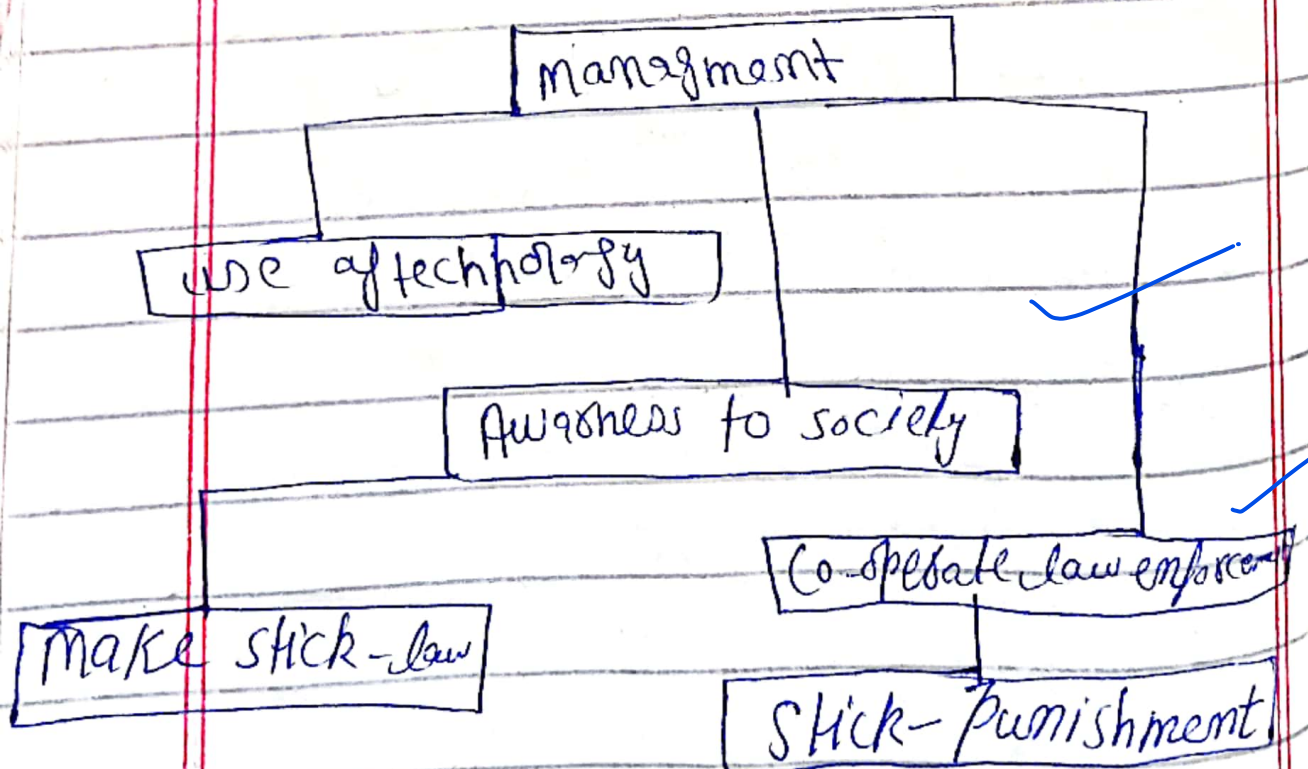

The law are prompt the crime. so it is ^{important} enacted the law. So it protect the state for crime.

(5) Strain theory of Robert that show the reason of spread Cyber-crime

anomie and white collar crimes and innovators

The strain theory explain the cyber crime is frequently spread in society. Because people are unable to achieve their goal that are set society by them. therefore, the involve in crime society pressurize them to gain money. so they choose illegal way to gain able of money illegally -

Management of Cyber-Crime:

The European countries promote National Counter Policy to handle these issue.

(5.1) Use of technology

The people are not aware to use of technology. Therefore, the crime rate increase. The Firewall and other anti-virus software are used to protect the system.

(5.2) Awareness to Society about these facts

The society is unaware about these crime. Fake links, ids To aware society through social medial platform. Block these types of fake mail or links, websites etc -

5.3. Cooperate with Law-enforcement Agency.

To co-operate with law enforcement

agency, To promote legislative
rule, To make stick law
and enforce it in society.

(5.4) Stick Punishments
Who involve in
Crime.

According to act of
Electronic media 2018 the
stick punishment are given
those who are involved in
Cybercrime. FIA are actively
work to enforce law in
society. and take stick
action those who involved
in crime.

Critical analysis

The Cyber-crime
are spread frequently

in Society due to unawareness
To take action and promote
awareness about these crime
which protect the Society.

Many years are
required to build
respect in society
but cyber destroy
it in a second's

Conclusion

The cyber effect the
Society rapidly. it is also
destroy the image of Nation
and individuals. Because
it leaks the someone's
private information. Therefore
it is necessary to stop
these type of crime in
Society. it is happen only
in these conditions if strict
law are formed.

dear student
your
arguments are
fine there is
issue of coherence
and basic grammar
is very weak
need improvement
