English Precis and Composition (CSS 2023)

Q: Write a precis of the following passage and suggest a suitable title:

Balanced Approach in Education

These are three main views on freedom in education: absolute freedom, strict authority, and limited freedom with the expectation of goodness. The belief that complete liberty leads to moral perfection influenced by Rousseau is flawed. Education should not solely focus on individual spontaneous development, as this does not ensure cooperation or the transfer of essential knowledge. A society relies on science and technique that needs to be taught. True education should strike a balance between freedom and guidance, providing not only an environment for growth but also imparting necessary mental and moral skills that cannot be developed without structured learning.
