Title : Urban Green Spaces : A Delicate
Delicate Balance Between Human Progress and Environment

Urban green spaces in cities provide multiple benefits, such as relaxation and entertainment, wildlife sanctuary, sustainable development, fostering community bonds, acting as a center for ^{cultural} gatherings and events, improving air quality, mitigating urban heat island effects, and is vital for mental health. However, rapid urbanization is a challenge to it. Therefore, sustainable urban planning is necessary for maintaining greenery in urban areas. It should be the vision that urban land be used such that a co-habitation between human progress and environment remain in balance.

Translation CSS 2024

When the self-created conflict in Palestine came before the United Nations for resolution, this world body representative organization recognized the right of self-determination of Palestinians and proposed formula by itself for the solution of these conflicts. The two state solution was proposed, but it is not implemented despite this passed resolution of United Nations since ~~from~~ previous seven decades. Contrary to this, on the behest of America, Israeli forces is playing a bloody game with the life of weakened and innocent Palestinians till date, and the Gaza city has been destroyed completely due to this ongoing war for the past two and a half months. Israeli forces, with the assistance of America, in this war have martyred mercifully more than 20,000 Palestinians including women and children, and left no safe place for survivors, who are losing their lives due to shortage of food and medicine.
