The Essay

Pakistan is at a critical point in its history, ready to realize its enormous potential and pave the way for long term prosperity.

For the prosperous state socio-economic and political development is mandatory. To promote economic diversification, Infrastructural development, Educational Reforms, by social safety nets, decrease poverty and

inflation rate, work on women empowerment, Sustainable development, keep an eye on energy crises, by digital Transformation Health Care reforms, these are all the key factors which include to become Pakistan as a developed country instead of developing country.

Pakistan GDP rate in 2024 is 2.4% (Finance Division) This growth was broad based with agricultural sectors expand by 6.3%. The major role in the destruction of economy in Pakistan is the decline of industrialization In 2023, 30 industries ~~will~~ would be closed due to poor economic

growth, and reason behind this is trade deficit. To tackle all these industry problems in 2023 Pakistan govt introduced SIFC to attract the foreign investor in Pakistan but the major reason is that foreign investor ~~is~~ hesitated to invest in Pakistan because of Political Instability and terrorism. The leading role of TTP in terrorism is obstacle to ~~to~~ in the economy of Pakistan.

Conclusion:

In conclusion, achieving prosperity in Pakistan requires a multifaceted approach that addresses economic

• Social and cultural dimensions

By implementing the prosper strategies

Pakistan can unlock its full

Potential and chart toward brighter Pak.
