

# Regional Trade

Regional Trade in Pakistan context that Pakistan trade in its region also a negligible. and South Asia remain one of the integrated region in the world trade. Mr Aurangzeb was question on geopolitical and political issue in his reply he said that Pakistan sought for to expand its trade. For that purpose they joined G20 and seeking the membership of BRICS.

Although trade play a vital role in reducing the tension and conflicts between two countries. But in Pakistan case Pakistan and India has a tension from long time since Independence. Yet if these countries improve their trade it will be beneficial for both countries.

India is a strong economy it give Pakistan business a huge market to grow. But for that purpose both countries stakeholder should be on

Board to trade with each other.

The ruling PML-N always wanted to do bussiness with India.

But the Primeminister and foreign minister also expressed their desire to do trade with india. But in

August 19st year foreign office of Pakistan also declared they have no interest to do trade with India.

Pak-India trade suspended in 2019 after the abrogation of Kashmir autonomy by India.

For its economic interest Pakistan should do trade with india. where it help to grow Pak economy where ~~it also~~ <sup>can also</sup> Delhi tap to central Asian market by transiting / passing through Pakistan. For that purpose a friendlier visa facility, direct flight and banking channel will be essential.
