

Title of the passage: Parks and their importance in Urban life / Parks as a Saviour of Society

Precis:

In big cities, green areas are a source of peace. Parks filled with a number of flowers and plants are beauty and create a place for society members to meet and engage. A lot of outdoor activities are carried out in parks reflecting different cultures. Parks are helpful in improving atmosphere by providing clean air and supports mental health. It also preserve environmental changes. As urbanization is rapidly increasing so a proper developmental structure is necessary to implement which includes parks, growing trees, rooftop greens spaces etc to develop a society where urban life becomes safer and healthier.

Translation

When the self-styled dispute of Palestine was presented before United Nations, the appointed universal institution has recognized the right to self-determination of Palestinians and while addressing the issues to the problem; advised two state-solution to the dispute. But since seven decades, the resolutions accepted on this problem have not been implemented. Contrary to it, on the will of America, Israeli forces are playing havoc with the lives of innocent, unarmed and sinless Palestinians and the area of Gaza has been destroyed from the war continued for past two and a half months. In this war American forces along with Israeli defence forces have brutally killed more than twenty thousand Palestinians including women and children and those who were left alive ~~were~~^{are} without safe sanctuaries who are losing lives due to less availability of medicines and food.
