Title:

The role of education and related wisdom

Precis:

There are three views regarding freedom of education. Some hold view of complete freedom of education for children irrespective of bad behaviour, other believe the authority regardless of good, and last one ~~believe~~ proposes absolute freedom. But this last case is not practicable. It is against human nature. Not all human beings possess similar qualities. Some are inclined towards bad habits. Education must be taken as positive activity. It must provide peace of mind and uplifts morality. At societal level, it ^{should} help in integration of children.
