Israel is not satisfied the current vulnerable situation of Palestine, they ~~try~~ are trying to make it more devastating by putting allegation on UNRWA (A UN Relief and work agency for Palestine refugees) a terror group and they also involved with Palestine on attack in Israel on 7 October last year. UNRWA a UN institution that are helping the Palestine into their devastating situation with food and other life necessities.

Israel this allegation other staunch supporter of Zionist state's also such as UK and US also cautioned the Tel Aviv to go against the UN. The purpose of this accuse is to just stop the humanitarian aid that providing the UNRWA to stop and let the

Palestinian people to die with hunger or to die with any disease.

Israel behaviour toward UN is always ~~de~~ contempt. In recently the Tel Aviv foreign minister declared the UN Security Council as a stain on the history of the UN. This show that Israel is a rogue nation. If Tel Aviv's western allies serious about to ban the UNRWA reserved into palestine or anyother country then they must do more than express concern. v

But the problem is that when it come to Israel many powerful states show hypocritical behaviour; on media show and express that condemned the situation in palestine but actually easuring that Israel right to carry the slaughter into palestine in the name of self defence.
