The tropical region of the northern Europe the effect of the cold weather on human and generation. They were facing many problems for their survival they ~~na~~ developed strong my ~~story~~ tube for their health protection they wearing thick clothes to ~~see~~ maintain their body temperature. they store oil for fire in the underground areas of their house. The equator weather is opposite with the northern Europe in such manner they have no major issues of health, food, fire and clothes. The human nature is also different from each other due to the impact of ~~weather~~ climate.

title - Impacts of Climate on human ~~Nature~~ nature
