Generation Alpha is a generation commonly known as a generation born in technology. The generation is born in the era of social media; and has not witnessed the dramatic transition of life that the previous generation has experienced i.e. the rapid advancement of technology. As per Elizabeth May, the burgeoning tech industry has rampantly impacted all spheres of life. The quote rings true because the technology has played a major role in economic prosperity, affecting every facet of life. It provides numerous opportunities for earning through platforms like Fiverr and Upwork. It also bolsters the culture of innovation as a number of countries are investing in Silicon Valley, and are improving the efficiency of different sectors. Thus in a nutshell,

the advancement in science
and technology has an imperative
impact on economic prosperity
and is a portal of
