The Essay Giden, an author of " A punishment of Gaza" mentioned in his book that world seems to be vanished due to wars Giden assibed that in reality the world's conflicts can be eliminated through mutal cooperations The mutal Cooperations are negoifution, Sunctions on aggresser

States and unity against aggression everywhere.

Undoubtedy, same is the case with current world order. The on going wars will be eliminated through numerous steps. These steps are Siplomacy, nuclear deterrance and international community. The above mentioned steps in heality peduce the was Moreover, economic interdependence and alliances also prevent the wars to become great war. The intervention diplomary at early stages, promotion of economic cooperation and arms control can improve the world order tremendously. Reforms in international organizations can reduce the esculation of conflicts Thus, the prevalent of op wars will not lead to world war.
