Title:

Urban Green Spaces, Human Life and Nature

Precis:

Urban green spaces are a source of peace in the daily busy life. These places serve as a refuge for wildlife creatures and save the nature. These areas not only are just for beautification but also a number of people of almost every age gather together to meet and greet each other. Greenery is good for environment and improves the air quality. But to maintain these areas a proper mechanism of coordination is needed for coexisting of human life and nature.

Words in Passage: 240 Approximately.

CSS-2023

Title:

The role of education and ~~related~~ wisdom

Precis:

There are three views regarding freedom of education. Some hold view of complete freedom of education for children irrespective

of bad behaviour, others believe the authority ⁱⁿ regardless of good, and last one ~~believe~~

rewrite this sentence

proposes absolute freedom. But this

last case is not practicable. It is against

human nature. Not all human beings possess

similar qualities. Some are inclined

towards bad habits. Education must be

taken as positive activity. It must provide

peace of mind and uplifts morality. At

Societal level, it ^{should} help in integration of children.
