

Artificial Intelligence: Its Promise and Perils:

Outline

1. Introduction:

1.1 Hook

1.2 Background information.

1.3 Thesis statement: Since the advent of twenty first century artificial intelligence is spreading at a greater pace. Owing to its greatness it has many promises and perils. It has promised to ease the workload of humans but its perils lie in replacing humans.

2. Promise of Artificial Intelligence: (AI)

2.1 AI will ease the labour work

2.2 AI will revolutionize the economy of a country

2.3 AI will overcome social problems

2.4 AI will revolutionize/modernize education system

2.5 AI will better the governance in a country

3. Perils of Artificial Intelligence (AI):

- 3.1 AI will replace human labour
- 3.2 AI will pose threats to cyber security
- 3.3 AI will not produce logical commands
- 3.4 AI lacks credibility in decisions
- 3.5 AI limits the creative learning.

4. Conclusion:
