A mobile is an electronic device which has many benefits. When a person use it responsibly it proves benefits beneficial for him, but when he use it for wrong purposes like playing games and use it for wasting time then it proves harmful for a person. In the same way although the freedom of speech is the fundamental right of human being, yet it proves beneficial when we use it positively. If a person use it for the calls for responsibility it brings prosperity, peace, promotion of national interest and human values and advancement in science and technology. but when it does not have use for the call of the sense of responsibility it raises various.

-kinds of social, religious and political conflict in a society: various kinds of crimes and emergence of dehumanization in a society.

The responsible use of the right of the freedom of speech brings prosperity and peace in a society.

Whereas the irresponsible use of the right of speech brings adversity and anarchy in a society. The government should take steps for the promotion of the responsible use of the right of the freedom of speech.

Freedom of speech is one of the basic right of the human being. When people use it for the call of responsibility. It brings a kind of a great change. When Mao Zedong called its nation for the responsibilities. He used this right freedom of speech for

for all its inhabitants.

bringing the sense of responsibilities in his nation. Then people began to work for fulfilling their responsibility, and this speech has enabled China to become as an emerging super power in the world. Freedom of speech calls for responsibility has bestowed the various rights, advancement and prosperity in various societies.

There are various kinds of advantages of the freedom of speech calls for responsibility. The one and most important benefit is that it raises the promotion of patriotic feelings among individuals. People begins to prefer the national interest over personal interest.

As in the war of 1965 the Pakistani great soldiers preferred their national interest over

1

personal interest and defeated their enemy. The enemy The calls for responsibility reuses these type of patriotic feeling in a person and enables him to become strong like iron.

Freedom of speech calls for responsibility also promote the feelings of humanization or philanthropic and moral values. When a person has the spirit to fulfil the calls responsibility then he will obey all his obligations and avoid to do wrong act.

The sense of responsibility pro reuses the moral value in an individual: As

"The basic message of all prophet for human is to call for responsibility." (Khalid Ahmed.

1990). The calls for responsibility encourage with the feelings of responsibility which supports a person

to fulfil his responsibility.

The various kinds of things need tools for repairness. In the same ^{way} the freedom of speech calls responsibility act as a tool for the repairness of the existing faults of a society. There various kinds of faults in society which does allow a society to move forward. If a person does not aware how to correct or repair it then how it will bring a kind of change or bring peace in society. There ^{are} various kinds of ~~example~~ which prove that how various kinds of societies repair themselves through the speeches of their leader's calls for responsibility.

As "China's recent developement only the influence of the freedom of speech calls for respons-

2

1 1 31

ibility of his leader." (Jamina Florence. Chinese' Development. 2000.) The

freedom of can also the change of fate of a nation or audience.

... to ... the freedom of speech calls for responsibility also

raise the environmen of peace and stability. Every person

begins to aware his responsibility.

Then, he always tries his

best to fulfill the imposed

responsibilities. Then, the society

enters into the realm of prosperity.

Various kinds of conflicts, like social

political and cultural can be

vanished only through the speeches

of the call for responsibility.

These conflicts adds a kind of

disturbance in all spheres of

life. So, the freedom of speech

calls for responsibility also

creates a peaceful environment

for all its inhabitants.

"The other one is of the most crucial effect of the use of freedom of speech calls for responsibility is that the emergence of a responsible citizen. These are a person about their duties

In this way, the person involves himself in fulfilling their duties rather than demands of rights

The society disturbs when a person protests for his demands rather than fulfilling his duties.

This imbalance creates anarchy in society. Therefore a person will become a kind of consumer rather than producer because he focuses on how to get a thing not how to develop a thing. The basic reason of the development of society is the existence of a responsible citizens. As Ahmed

Bari describes the causes of the worse condition of a country in his article "The key of success" that the one and crucial cause is the emergence of the irresponsible citizens in a society. In The responsible citizen can also develop through the awareness of the freedom of speech call for responsibility. In this way, the society involves in fulfilling their duties. and as

The influence of the responsibility invokes about responsibilities through the medium of freedom of speech does not only impact upon the people creating the peaceful environment but it also brings advancement in technological and science fields. The technological advancement is the product of productive and analytical brains. When the society is in a

stable condition then the political stability also urges the development of positive and provoking brains. The youth does not move outwards of the country. They also bring technological and scientific advancement through their thinking. They go out from the country for the purpose of studies then they come back to the country with the advanced skills of learning and develop various kinds of advancement in technological fields through their experiments. The polit In this way the society moves towards the steps of development.

There are various kinds of bad consequences if the freedom of speech is not has the element of calise for responsibility. The one and the

kernel impact is the emergence of the various kinds of conflicts.

The society always indulges in various kinds of conflict.

because they prefer their own point of view. They involve

in frivolous matters and divide

themselves into various kinds

of groups. They always protest

for their own point of view

As "The various kinds of conflict

in a society is the outcome of

the irresponsible use of freedom

of speech" (Jasmine Jhon. Social

conflicts. 1898) In this way the

emergence of conflicts is the

product of the irresponsible

use of freedom of speech.

Another

and most impact of the absence

of the element of responsibility

in the freedom of speech is

the social anarchy in a society

When the people divides in various kinds of groups it leads towards social anarchy. People does not satisfy with their existence.

They always involves in various kinds of conflicts: They do not provide a stable environment to the investors. This anarchy is directly and indirectly impact on the developement of the country. The "foreign" investors do not like to invest in the country which are always involved itself with various "kinds of" country. conflicts. As the reports of economic growth shows that the economy of Bangladesh has faced a gap in GDP growth only because of the conflicts in the country. Hence the conflicts drastic impact upon the developement of a country.

Preference of personal interest over national interest is the outcome of the absence of awareness about the responsibilities in the freedom of speech. When people does not have the spirit of doing something for fulfilling their duties then they prefer the personal interest. Everyone wants to fulfill his ambitions. They do not think that whether the choose path for fulfilling demand is right or wrong. The preference of personal interest leads a country towards adversity. As Faisal Bari describes the causes of the stoping developing in Pakistan. He said that the main and most important cause is the 'preference of personal interests over national interests'. Therefore, the preference

_ _ _ : 6/5

of interests plays a crucial role in the development of a society. It also raises through the positive or negative use of freedom of speech.

The various kinds of crimes is the outcome of the absence of the element of the responsibility in the freedom of speech. The people do not aware about their duties.

They prefer their personal interests over national interest. They only wants their demands not fulfilling focusing on fulfilling their obligations.

They demand use illegal means. They only wants to fulfill their rights. As the famous criminologists de Travis Hirschi in his "Social Control Theory" described the main cause of crime in various kinds of factor like peers

parents but he also described the influence of media. If an individual observe and that everyone fulfill his demands through the use of illegal means then he will also involve in various kinds of activities which is against. The another drastic impact of the absence of element in the free freedom of speech is the degradation of human values. Nowadays social media is one of the basic medium of freedom of speech. It connects the whole world into a kind of village. There are various people use the right of the freedom of speech for spreading wrong perceptions and news about any kind of matter or things. They also spread fake news about the other people

about the - which is directly or indirectly impact on the life of people. and violates the human moral values. According to the Euro report "the right of freedom of speech through violates the human values and degraded human dignity." through the u
 In this way the right of freedom of speech violates the human values.

Although the right of freedom of speech proves beneficial and dangerous in society. yet it also depends on its positive or negative use. There are various kinds of measures which promotes its positive use and retains its fruitfulness. The first and most important use step is the use of social media. The social media is one of the

main platform of connection of the whole world. The government and the whole society also encourage the persons those promotes the raising the sense of responsibilities. They are doing their good jobs. In this. They are true patriot. In this way, the govern - so spirit of the sense of fulfilling responsibility can raise through the positive use of social media.

The another step for fulfilling their rig deti the positive use of the right of freedom of speech is that the government should not only remain in making legislations but also keep an eye on its impulementation through institution. The persons those use the right of freedom of speech for spreading

anarchy and conflicts in society. They raises the conflicts and hatred feelings against other people among the people. The government imposes the severe punishments against such persons. When the people has observed the implementation of the proper laws then they will choose the right use of the freedom of speech.

Institutions specially educational institutions plays an essential role in character building of a person. As the teachers are the true builder of a nation. Therefore, they plays an essential role in building the character of a person. They develop the opinion of a person. When the teachers teach the students about the positive use of freedom

freedom of speech then they will generate the trained persons those aware about responsible use of freedom of speech. The teachers are torch bearer. When they teach their students the fulfilling responsibilities rather than rights. and inject the thought that they should spread the message of fulfilling responsibility in society. Hence, the basic goal of the provision of fundamental right can be to expand the protection of human right can be achieved, through the awareness of ^{use of} freedom of speech which promotes the peace in society.

To be concluded we can observe that the freedom of speech is the

basic and fundamental human right. The whole world had achieved this right through war against the monarchy. It is the soul of democracy. If we use this right for the call of responsibility then the society becomes heaven and achieve its main goal peace, prosperity, stability and the protection of human fundamental rights. If we do not fulfill use this right for the awareness about responsibilities then we will the whole society will involve in social anarchy and disturbances which are the outcomes of social conflicts, crime and degradation of human values. It occurs because the individual use his right freedom of speech for the purpose of attaining his own interest.

One person use his right for the exploitation of other's values. Proper implementation of law and the positive role of educational institutions can mend the responsible use of freedom of speech. As

The freedom of speech call for responsibility invokes peace and prosperity in society. It is the key of development nations. for success
