

Letter

Write a letter to the Inspector General Police about the discriminating attitude of the police towards the citizens.

Examination Hall,

City: A.B.C

1st Sep, 2024

Subject: Attention towards the discriminating attitude of the police towards the citizens.

Sir,

I am writing this letter to draw your attention towards the discriminating attitude of the police towards the respectable citizens. I am resident of colony 168 Lahore. People often face many crimes like thefting, snatching and murdering. They register their first information report (FIR) in near police station. Police writes their FIR initially but takes no action. On the other hand if there is a person who

belongs to a rich or well off family, police gives him important and takes immediate action. Police does not work without a strong commendation. Same behaviour is kept with citizens by traffic police. If someone has strong background, they let him go otherwise they charge Challan to him. This kind of attitude of police clearly shows distinction between rich and poor. Everyone should be equal before law.

It is requested to take steps in this regard because it is also against constitutional right of the citizens.

I hope you will take action after receiving my letter.

Your truly,

X.Y.Z
