▪ Practice Exercise

The young leading the young is like the blind leading the blind; they will both fall into the ditch. The only sure guide is he who has often gone the road which you want to go. Let me be that guide; who has gone all roads, and who can consequently point out to the best. If you ask me why I went any of the bad roads myself; I will answer you truly; that it was for want of a good guide; ill example invited me one way, and a good guide was wanting to show me better. But if anybody, capable of advising me, had taken some pains with me which I have taken, and will continue to take, with you, I should have avoided many follies and inconveniences, which undirected youth ran me into.

161

Importance of an Experienced Person

Following the directions of the young will not lead to the right path. Seek the guidance from an experience person who has explored different pathways. In order to find the best way, he himself faced many inconveniences due to the lack of an advisor.
