Biased Media leads to polarization of Society.

Media plays pivotal role in society. Media is also called reflection of society. What it shows and what it hides from people, and for great masses. Media is the expression of ideas, different thoughts, it also control the minds of society. If we say that Media ~~is~~ acts and works like an eye it isn't wrong. Media is a source through ~~we~~ we can make innocent to guilty and guilty ~~are~~ to innocent one, by media. Unfortunately it is under control of super powers, great and sharp minded groups. Media sometimes shows the reality of society but mostly it hides.

"I still believe that if you aim it to change the world, journalism is a more immediate shot-term weapon". Tom Stoppard.

Solutions:

- Media should be free from the control of great masses.
- Media must play its role for awaking people, society what is happening nationwide or in all-over world.
- Well-trained and well-behave journalism should be part of media.
- ~~Every~~ journalism should have freedom of express according to the Article '19' of Constitution of 1973.
