

CSS-2024 Translation

When the self-created conflict of Palestine was presented to the United Nation for resolution, the global representative instituted by recognizing the right of self-determination of the Palestinians also formulated the solution of these conflicts. The two-state solution was proposed for the Palestine conflict, but the resolutions passed for this conflict by the United Nation have never been implemented for the past seven decades. On the contrary, Israeli forces under the patronage of America have been shedding the blood of unarmed and innocent Palestinians to the present day, and the area of Gaza has been completely destroyed in the continuing war for the past two and half years months. In this war, with the

support of America, Israeli forces have martyred more than twenty thousand Palestinians including women and children. And they have never left any safe haven for the surviving Palestinians who are also losing their lives now due to lack of food and medicine.
