

A Critical Analysis of Education System in Pakistan.

Introduction:-

Nelson Mandela said, "Education is the most powerful weapon you can use to change the world." Acquiring education is very necessary for every person. Education plays a vital role in human life. So, education is both the act of teaching knowledge to others and act of receiving knowledge from someone else. The education system of Pakistan is divided into 6 categories: Pre school (from 3 to 5 year), Primary (1 to 5 year), middle (6 to 8 year), Secondary (9th and 10 year) leading to Secondary School Certificate or SSC, Higher (11 and 12 year), leading to higher School Certificate or HSSC, ~~and~~ and University program leading undergraduate and postgraduate degrees which is decided by Higher education system. All Commission of Pakistan HEC.

However, the education system of Pakistan has many strengths and weaknesses. Moreover, it is suffering from worse challenges now-a-days, like Political instability, corruption, Poor and outdated examination system, lack of technologies, hiring of unskilled and untrained faculty member, funding and resource allocation and Poverty are the major challenges. Thus Government should spend sufficient budget for education and expand Digital learning. All in all, education system of Pakistan
