commander was the Prophet Mohammad
(PBUH) and his wife was the Mother
of the Believers Ayesha (RA) In order
to defend her honour, Allah sent down
a series of Ayat or instructions in
the Quran: 4 of which were meant to
southe the heart of the Prophet (PBUH)
and eighteen of which highlighted the dangers of stander, back-biting and
propaganda. This ratio, according to Islamic
scholars, is one of the most powerful
indications of how dangerous the power
of propaganda is Indeed, history has been
reflective of this reality. Propoganda has
often been used as a tool to
weaken the Mislim world, from the inside
and outside. This essay intends to highlight
powerful instances where the power of
propaganda against the Muslim world was
on full display A series of volust
measures are also presented. A can,
therefore, be effectively argued that since
the birth of Islam to the modern
age, propaganda has been a persistent

	thorn in the side of the Muslim
	world Strong measures are needed to
	defeat propaganda and unite the Muslims.
	Before diving a into the simpact
	of propoganda on the Muslim world,
	it is helpful to lay the grandwork
	of what propogarda is and what
	are its forms. Propaganda is defined
N. S.	as the spread of misinformation about
	a person people or state infused
	with malicious intent It is designed
	to sway a public's opinion against
	something, in order to damage or
	lower its impact It takes many forms
	such as propaganda through print media
77	word of mouth, social media campaigns,
	cyber intatives and projects etc. and
	more these various forms of propaganda
	have historically damaged the image
	of the Muslim world and served to
	diside the Ummah.
	igainst the Muslim world is most

details are presented in a book 200

these highlight the power of propaganda

Furthermore, the power of good
propoganda is visible even during
Islams empire in Spain The Muslims

1	This eventually led to a dangerous
	attempt at genocide as well as the

1	mass expulsion of the Rohingya Muslims. This phenomenon is a vivid
4	representation of the power of propoganda
-	and how it has been used
	against the Muslim world
	Moreover propoganda has also been
	used to create fogs of confusion that hinder efforts at peaceful resolution
	that hinder efforts at peaceful resolution
	of disputes without agreed-upon facts and in the absence of a shaxed
	and in the absence of a shared
	realty, diplomacy loses its footing. The
	Muslim world has suffered because of
	this, particularly in the case of
	Palestine The existence of conflicting
	narratives over October 7, differing analysis,
	divergent historical understandings and
	a strong emotional bond of various
•	sections of the world with this
	conflict create a haze of confusion and
	hinder any international efforts at

	continued persecution of Palestinians. In this

way propoganda can be looked upon as
way, propoganda can be looked upon as a took against the Muslim world.  Modern propoganda against the Muslim world is now so effective
Modern propoganda against the
Muslim world is now so effective
 and so widespread, it has even incited
violence against Muslim communities in
countries like New Zealand Case in point
would be the Christchurch mossacre, where
a single individual, influenced by
propagandist forces on the internet,
 laid waste to many Muslins in a
mosque by shooting them such is the
mosque by shooting them such is the tragic power of propaganda and its effectiveness against the Muslim world.
Another effect of propaganda
 against the Muslim world that is
visible in the West is its ability
to bring about the conflictual side
of conservative Western factions turope
is already locked in the grip of a
wave of nationalism. Propoganda supercharges
this nationalism to act against the
Muslim segments in European countries It
also leads to popular support and the

creation of anti-innigration policies in
the continent. This creates problems for
Muslim communities In short, propoganda
can be used to sway populations
against the Muslim world
Furthermore, propoganda helps bring
about inaccurate understandings of
Islamic teachings. Islam provoles honor,
dignity and peace. Its fundamentals
and teachings are divinely designed
to promote such principles However, such
is the power of propaganda that it
can cost shadows over this peaceful
portrait The absence of solid understandings
of Islamic fundamentals, weak scholarship, and
low representation fail to inhibit these
confusions and even lead to the
formation of policies that go against
Islamic principles. An example of this
is the Hijab ban in France, which
is a direct consequence of this
propoganda. Therefore propoganda brings about
inaccurate understandings of Islamic teachings.
In addition to this, propaganda

depicts Islam as fundamentally incampatible with western values. This can create harsher divisions between the Muslim and Western civilizations: A manifestation of this division is the vecent ban on political Islam by Sebastian Cruz, the chancellor of Austria. Moreover, propoganda can even
help invite the unjust persecution

	Muslims is apparent in the case of
	India, where Lynchings over Muslims
	sacrificing cows, the demolition of mosques, and the expulsion of Islamic scholars
	and the expulsion of Islamic scholas
	is prevalent. The RSS mentality that
	is prevalent. The RSS mentality that causes those injustices feeds off this
	propaganda and amboldens its followers to hurt and torture the Muslim
	communities. This makes clear the link
	between propaganda and the persecution
	of the Muslim communities.
	effect propoganda has on the forces
	of democracy in Islamic countries.
	Ropoganda serves to weaken such values,
	depicting Islam as a round pag in
	the square hole of democracy. This
	robs Muslims of representation and various
	other freedoms and installs corrupt
0	leadership An example of this is the
	impact of this propoganda on the
	Arab Spring, where despite the people
	rising up for democracy, no substantial

Propogandist forces loosened the pressure
in the tyres of these vehicles of
democracy, and the political situation
stayed the same Therefore, propoganda
 helps weaken the forces of democracy
in Muslim countries
Finally, smear campaigns hinder
effective diplomacy with the Muslim
world The Prophet Muhammad (PBUH)
promoted and practised an outward
foreign policy Goperation was the cornerstone
of the interaction of the Muslim
Communities with the outside world. However,
propoganda helps to discredit any treaties
made with the Muslim world At times,
