In ~~The Relation of an Individual~~
Quality Urban Green Spaces :-

In the fast forward lifestyle of cities,
Urban green spaces plays a crucial role.
The greenery with vibrant environment welcome
the comfort and bond with the nature.

Whereas, the parks play's the role of
human well being and help in creating
good relation among themselves that
includes family gatherings, concerts, art
exhibition or sport game. These urban
spaces are not only a space of recreation
but become a place of spreading culture.

Also, when it comes to human well-being
the purification of air, reducing scorching
heat: apparently, it helps in an individual
mental health. Environmentally there are
certain challenges which needs to be
look after during the increase of
urbanization with the preservation of green
spaces. As result, the sustainable urban

resultantly

planning includes no both care of both human
and environmental health.
