

## Comprehension 29: CSS 1993

Q: Read the following passage and answer the questions that follow. (20)

Recently the mass media, formerly subservient to the medical profession, have become increasingly restive, and occasionally hostile. In Germany, in particular, the newspapers and television have given great deal of time and space to the complaints against the medical profession. In Britain on BBC radio and television, the medical practitioners have come under sharp and aggressive criticism.

Is this antagonism to the profession justified? And if so, why? I have tried to answer that question by looking at the way it deals with some of the diseases of our civilization, including the most lethal, heart attack and cancer. If what emerges is an indictment of the profession, then I would rebut the charge that I am anti-doctor. Montaigne said: "I honour physicians not for their services but for themselves". That goes for me too.
