Robly belit ascribes in one hos most prominent books " New Cold War to the tradational methods of combats in the existing multipolar world become useless. Nation States have been influcing regions which have geneconomic importance The geo-economic regions have provided the most enormous benefits to gain power against the competitors, Robin ended the stance at lust chapter of " New Cold war undoubtedly, now war fronts lie in the economic zones Nution states have been influcing energy hubs, trade houtes and air space for the economic war zones. moreover, Islands, ports, oceans and economic acionce became the part of economic war fronts. The competitors have been using massive sonctions against one another to curb the extension of trads. Besides, the nation states asgreiassting The sovereign territories to overcome the enemies Countries ground the world have perched to the dry lunds of memote regions to establish economic Jones. most of the nution States have been fighting currency de-valuation to be the part of economic war fronts. Additionally, nation states have currently captured and installed alliance in Oceans to encounter the enemies last but not the least, countries have imposed sonctions against exports of ninevous products sending to competitors. Therefore, new war fronts lie in the economic zones.
