

EXERCISE I

We should face facts as they exist. We are multilingual it is true, and a very poor country too. The fear of, getting employment or not getting employment springs, out of that poverty of ours. But once we took courage in both our hands and began to work, poverty would vanish, and then those languages which have created a narrow regional spirit instead of being the curse that they seem to us today, would function as magnificent vehicles of expression for the rich variety of cultural patterns and modes of living and thought that we have developed. Let us hope that day dawns very soon. A regional language as the medium of instruction can facilitate the process of education. It helps the child to learn with ease and interest. But if it is thrust on an unwilling minority used to another allied language it can vitiate the very process of education. It is supposed to help and would create difficulties of a socio-political nature. (180 words)

Title: Multi-lingual State and Education

Required words: 60

Attempted: 59

Our country is multi-lingual and poor. Therefore unemployment prevails in its every corner. The poverty will automatically disappear and multiple languages will turn out into blessing once people start working together. A foreign language as medium led to poor education and socio-political problems in a country. On the other hand, if a regional language is made medium, education will become common and accessible.
