بہی میری کہی دوا بھی لیا
عورتوں نے یہ دور میں قوموں کو سوارہ

Some time women become
Maryam, Zahara and
Some time Eva.

Women Andore nation in
every era

Write quotations within paragraph

in the Second world
war. it was assumed that
German won the war due
to their advance weapon
and zeal and Zeal. At the
end great British won. The
result shows that when German
restricted their women to work
outside. At the same time Queen
Elizabeth II worked in automobile
company to utilize their human
potential. The women are
considered as a hindrance. Due to societal
norms. it is a particular thought
that women are inferior to
men. Because men are bred

winners of family. While women works to do house chores. They never allowed to get education. Because it is considered that their primary duty is development of children and management of home. But now a day's reality becomes change. Women are participating in every field of life like ~~beauty~~ beauty, medicines, technology, army, sports and media etc. And make progress.

Women are considered frail in past. because they did not have right to get education. They were dependent on men for the necessities of life. The term the frailty the name is woman taken from the play of Shakespeare novel where these words are Hamlet used for her mother. Because she married her father's brother after the death of her husband.

These dialogue shows the inferior condition of women. She was unable to bear her expense. Therefore, she marry again. The term of a girl shows the inferior status of women where she is completely dependent on men, due to lack of education, awareness, not having political representation and implementation of law, which are the basic cause which affect women empowerment. They are suffering stereotypes of society.

Firstly, Ritu's reason makes female weak. It is thought of society that women are delicate and not bear harsh environment. So therefore they perform house chores. While men are brave and strong. So he is considered bread winner of family. Women are not allowed to talk in front

of. While on the other side it is shown that woman bears the pain during delivery. it shows women are not weak. But society makes them weak/fragile. They do not give them proper opportunities for progress. They are economically deprived and dependant on male member of family. Moreover, woman represent the half of the world population. But their representation in politics only 8%. which means they do not have right of decision making. which makes the Subordinant.

Moreover, situation are substitute now a day. women participate every field of life. in which they have opportunity to make progress. firstly, women role in armed forces. women participate in force. and represent their country. For instance

Lt General Nigaz bano is a
first army doctor that reaches
to the position of General.
Similarly, Captain Maryam
Shaheed was the first five
fighter women of Pakistan. They
are represent their country and
made progress in their field.
In the similar fashion women
work in science field and
make many invention. Marie
Curie is a scientist who
works on laboratory with her
husband where she discovered
Radium. She also discovered the
causes of cancer and their
treatment. She makes their
in the field of science. She
is the only scientist who
receive two awards in same
invention. Moreover, women also
showe their influential in
technology. Today women work
in multinational companies on
high rank. The late arifa Kasim

an. the first microsoft
woman she was computer
scientist and marked an
inclined mark on the field
of technology. women also mark
their name with word. These
are number of woman who
make their in literature.
Helen Keller was blind woman.

She writes his feeling in the
form of literature. She had
to see world in her
literature.

in the similar fashion,
woman are participate in
politics. She is successfully working
in the non-tradition field and
she is working side by side
on the men. These are
examples of woman like
Benazir Bhutto became the
first PM of Pakistan. she
work, with the responsibility
of their children. Similarly

Jamida Aslam PM of news channel
who grow their child on
the terms of her office.
in addition to, media women
play a vital role in media.
They are working a journalist
singers, actresses. The Pakistani
American singer, producer
Ayisha designs Asoj Aftab.
who received Grammy winning
award moreover Sharbina
Abide documentaries in which
she explains the voice
on women are remarkable
and she is also get award
on these documentaries are
"Face Saving" in addition
to Mehwish Hayat received
"Tamgha Hayat" which is a
civilian award, and gives
on the performance of common
citizen. These all are represent
the women that women are
not afraid and if they get
opportunity. They will surely

make progress. Now a day woman also participates in Games. In 2024 the olympic winner Zhen Qiuwen who win single gold medal. Similarly Rubab Riaz Pakistan Swimmer who had also participated in olympic competition in 2004. Samia baig climb mountain K2 and make their country proud on them and showed that women are not weak.

Thirdly, in civil services ASP Anousha Choudhry is a first female police officer that is appointed in KPK. and now she is serving as investigation officer Lahore. in addition to justice Ayesha Malik is a first justice female in supra court. They are showing the hard work and courage of female. That woman are capable to do work on

every field.

In addition to, which things that make women fragile. Lack of education. Women do not equal chances of getting education. Therefore they do not get job in stable institution. They are economically deprived and depend on man. The UNICEF report shows that 24% women more than men live in a miserable condition. Similarly they are half of the world's population but they are represented only 24% of parliament while 8% of the nation government which means they are not included in decision making process. The decision of women are not considered important. Women work in home like cooking, washing, cleaning and development of children. It is a common concept. These are responsibilities of women. They

are not allow to go outside for work. which creates them inferior. The work places are not save for women. These male colleague are not happy to see them making progress. About 50% of harassment cases were recorded on workplace. which makes condition difficult for women to work outside. moreover unconscious gender bias sexual sex. The main verbally abuse women on different places.

How to Counted these norms from Society. make women educated. Provision of education is the best source of women empowerment. Build school or online education are promote which is helpful for those girls those are not allow to go outside. makes law for the protection of woman at work places and implement it strictly

to protect work from harassment and rape. The survey from down news show that every single movement rape cases are reported. Mostly cases are pending and not solve. Most of the case are not registered due to patriarchal thoughts of family. They ask their girls not ask anyone about this incident. Different laws are formed for the protection of woman but they are not implement completely. That are main cause of violation of law. 28 sep 2024 the report of senate public committee of Sindh. in which rape cases of woman in which 1058 cases files and 995 were pending which shows the weaker condition of legitimacy in Pakistan. Therefore, families never allows their girls to go outside.

Moreover, some changes are useful for making women empowered in society. No to make silence against rape and harassment cases. Strict action are taken to punished the accused, which is helped for women to go outside independently. Like the Punjab government makes the app safe city which is a good initiative for women. These steps are essential for the protection of women in society and makes better environment for them. Similarly women makes strong through economically stable. Provide them chances of employment ~~it~~ is possible through vocational program are start, in which ^{train} women which help them in professional life. Many law are present for women take initiative and implement these law strictly.

Women are stable
now a day. They are
representing in many field.
They have their own will
to do things. They have
rights to choose their
education with their own will
But all of the these women
suffering in developing countries
due to lack of facilities
stereotypes and patriarchal
society. which are not
allow women to work
independently. But these norms
are control through education
and gives awareness to
society. it is essential
to make law and enforce
it in society. Because without
women progress of country is
impossible. No one can stand
with developing nation
