~~Youth vacuum~~

Weak image of country

Einstein fled Europe due to Nazi's movement and its anti-semitic policies in Germany. Not only Einstein but also his genius mind and expertise fled to Europe.

Germany lost the future Nobel Laureate and a brilliant mind that could have contributed to its scientific and technological advancements. Brain drain is a risk of

factor for any country. It is neither a new issue nor it is a fully settled one. Developed countries are dealing with it successfully while developing countries are still struggling. Unfortunately Pakistan is one of them.

The driving factors of brain drain ~~as include~~ poverty, inflation, unemployment, high taxation, gender discrimination, lack of opportunities, corruption, lack of social justice, lack of educational facilities and research work, insurgence of crimes, terrorism, law and order situations, and political instability.

It has far-reaching consequences which include generation gap, youth vacuum, loss of professionals, hindering innovation, decline in economic growth, etc.

Brain drain is caused by country's ineffective policies. Country should address them to solve this issue.
