

7: Why do I want to become a Bureaucrat

I want to become a bureaucrat, because this is one of the most noble and respected professions in Pakistan. This profession offers job security. Additionally, this job provides the opportunity to serve the nation. It enables an individual to make decisions. A person can utilize his knowledge for the welfare of the people, the fellow citizens of the nation. Moreover, this respected profession provides a lavish lifestyle. Therefore, thousands of people appear in the exam, each year. Because, they consider this job as the fastest way to achieve stability and success through hard work. Although, they utilize their potential to the fullest, during their undergraduate studies, despite they fail in securing jobs. Thus, Bureaucracy is one of the demanding and noble professions that I too, have the aspiration to become a part of it.
