

Causes of consequences of climate change in Pakistan:

Rough work:

Brainstorm

1. Introduction

1.1 Attention Grabber

1.2 Background Information

1.3 Thesis statement. The world witnessed the consistent change in climate because of human activities, Deforestation, Industrial activities that has led to economic crisis, health crisis & ecological fragility.

A Main Body

1.1 Human Activities

- Burning of fossil fuels such as coal & oil has increased the concentration of CO_2 .

1.2 Deforestation

- produces 24% of global green house gas emissions.
- In tropical Rainforests adds more CO_2 to the atmosphere.

1.3 Industrial Activities

- Raised level of CO_2 level from 280 parts per million to 400 parts per million in last 40 yrs.

1.4 Increasing incidents of nuclear leakage.

- Nuclear leakage in Iran.
- Chernobyl disaster of 1986.

Conclusion

Not a comprehensive outline

Properly write thesis statement.

Keeping in mind parallelism

You have mentioned causes but not consequences

Address all the aspects of essay in properly

While writing outline make proper headings of causes of climate change

The Essay

How do you explain that 8000 years ago we had different weather than today? When you look at yourself in a dirty mirror; can you see your image very well? The same occurs when the sunrays reflect on the sea and the reflections can't be released into space because gases in the atmosphere block their exit to out of space causing the planet to get warmer. Climate change refers to long-term changes in the weather patterns on Earth. The primary cause of recent climate change is the increase in green house gases such as CO₂ & methane. Factors contributing to climate change in Pakistan & other countries are, uncontrolled deforestation, Human Activities, industrial Activities, and Increasing Incidents of Nuclear leakage leading to Green House Gas emissions. These causes have drastic consequences or impacts on: Agricultural Crisis, Health Crisis, Ecological fragility, Economic Crisis & many more. Environment is in us not outside of us, the trees are our lungs, the rivers are our bloodstream we all are interconnected and what you do to the environment ^{ultimately} you do it to yourself.

While writing introduction

Properly make attention grabber
in a coherent way

Secondly, write summary of your
all arguments in a precis way

Work on your paper presentation
as well

Avoid cutting

Activity 1

The paragraph on the apple plant, like almost any piece of effective writing, has two essential parts: (1) a point is advanced, and (2) that point is then supported. Taking a minute to outline the paragraph will help you understand these basic parts clearly. Add the words needed to complete the outline.

Point: Working in an apple plant is the worst job I ever had.

Reason 1: _____

a. Loaded cartons onto skids for ten hours a night

b. _____

Reason 2: _____

a. _____

b. Had to work sixty hours for decent take-home pay

Reason 3: _____

a. Two ten-minute breaks and an unpaid lunch

b. _____

c. Loneliness on job

(1) No interests in common with other workers

(2) By myself for two hours cleaning the apple vats

Date: _____

- ① Work was Physically Hard.
- ② Each Carton contained 25 parts of Bottledapple Juices. Even with
the admist came down the track, work was what went
on the track and all the juice was good, only 300 were
lost.
- getting minimum wage. 13.65 dollars/hour
with a quarter extra for working at Night.
- I hated working conditions and paid at cost regards. Freight
was not paid for the truck to go to the port.
- Most of time was spent outside, loading the dock in
0° temperature and Admixture.
