

How CPEC phase II will galvanize industrialization and employment in Pakistan?

Introduction:

"CPEC is the best project for social and economic development of Pakistan and guarantees best future." Asim Saleem Bajwa

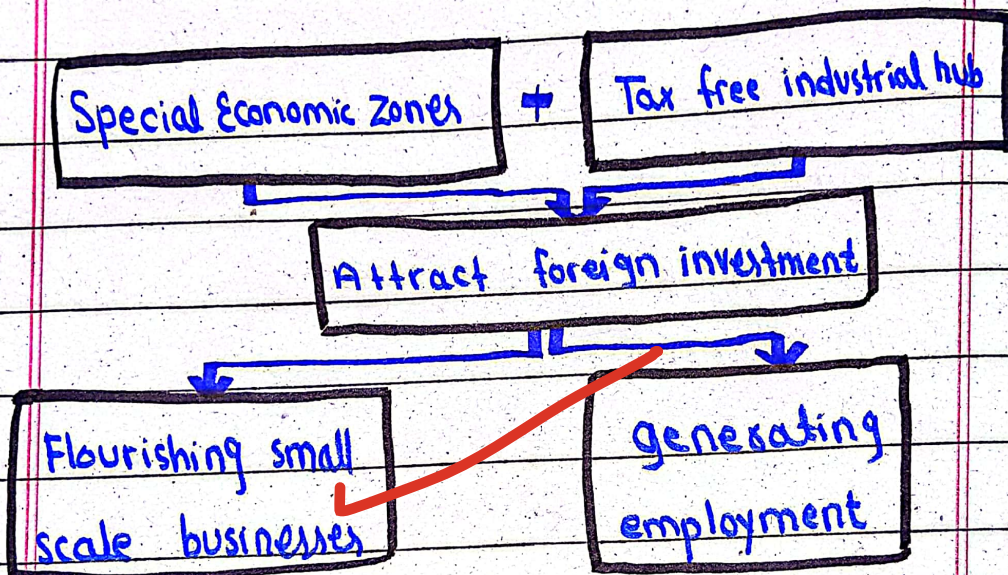

CPEC phase II is the increment of ~~phase I~~, emphasizing on industrial development, agriculture cooperation, Technological advancements and socio-economic development. Setting up tax free industrial hubs and creating special Economic zones at various locations will attract local and ~~foreign~~ investment. This will generate employment opportunities for the locals and will improve their living standards.

Day: _____

Date: _____

Creating SEZs-Boost industrialization:

Nine special economic Zones (SEZs) will be created in which three SEZs including: Rashkai, Faisalabad and Dhabaji will be made functional in first phase.

Critical Analysis:

The progress of the CPEC has been slowed down due to the security concerns and political instability in the country. To fully harness the benefits offered by CPEC, Pakistan should resolve these security concerns and provide profit generation environment to restore the investor confidence.

Conclusion:

Hence, CPEC phase II will galvanize industrialization and employment in the country. It results into the socio-economic development of the country. Rising security concerns should be addressed in practical to leverage the benefits of CPEC.
