

# Title: The Dream Of Freedom

Precis:

I dream of seeing my nation emerging and living out to its fullest. The day of independence will mark an end to slavery and ownership. The unjust state of Mississippi will become the pious state of freedom and justice. This nation will abolish racism and choose character. The brutal rulers will leave Alabama that day and brotherhood will prevail. Every difference will be terminated. ~~an~~ All men will see the glory of Lord equally. This blaze of hope will burn down every mountain of despair. It will end the disputes and feuds. It will unite us in every kind of circumstances. This aspiration and determination will help us gain freedom one day.
