

Essay Writing by Sir Ali SHAHAB

Assignment #1 :-

Prepare an outline and write an introduction of essay
'Climate Change in Pakistan :
Causes and Consequences'

1)- Brain Storming :-

over population

Poverty, more use
of vehicles and CFC's

Outline :-

Attention Grabber

1 Introduction :-

I have long understood that climate change is not only an environmental issue — it is a humanitarian, economic, health and justice issue as well.

2 Causes of climate change :-

2.1- Human Activities

(Human activities such as more use of vehicles and appliances that eject CFC's and other green house gases.

2.2- Deforestation

Unnecessary cutting of trees causes increase in natural disasters such as Floods. Due to cutting of trees life is at risk and food chain is disturbed.

2.3- Energy Production in industries

Rapid increase in temperature, Human life at risk.

3 Consequences of climate change :-

- 3.1- Emission of many Harmful gases such as CFC's that cause many respiratory issues and pollutes air
- 3.2- Natural disasters such as Floods are increased causing sudden death on a higher level.
- 3.3- Increase in temperature

4 Conclusion

→ Introduction of Essay :-

Almost a week ago, In a village of District Mandi Bahhaudin a labourer suddenly fainted and fell from building while doing heavy labour due to scorching heat in this extremely high temperature. Despite of medication he eventually he died. This day of misfortune remind the phenomenon of climate change. This is how climate change not only effects our environment but also our health and disturbs a nation's economy. Unfortunately, from past two

Date: ___/___/20___

decades Pakistan is facing severe climate changes / issues, mainly due to human activities that includes deforestation, energy production on a high level and overpopulation. However, we should control this disturbing mechanism of climate change by making some efforts such as reforestation. This highly disturbing phenomenon of climate change should be controlled before, nature would do it itself brutally. We should understand the fact that a nation that destroys its soil, destroys itself.
