Title

Causes of Unhappiness.

There are various psychological reasons behind unhappiness. Generally, people who lack happiness in earliest life give more importance to satisfaction. However, highly frustrated individuals do not strive for satisfaction and ~~we~~ adopt intoxicated behaviours to make life less alive. Certain self-obsessed individuals adopt wrong behaviours to achieve happiness. But men who turned to intoxicated behaviours, have lost ^{all} hopes for happiness. They accept and feel proud over this fact. So, it is crucial to pursue them towards happiness.

Day: _____

Date: ____/____/20____

It is common practice that people who have experienced much excitement in earliest life, ^{and} ~~later~~ believe that nothing has left in life and feel pained over this perception, by ^{about unhappiness} considering it as nature of universe. This create doubt about actuality of unhappiness in the mind of others.

It creates belief that those who enjoy unhappiness are not actually miserable.
