The Essay

Indecision and delays are the parents of failure. Pakistan is among the countries where the trend of delayed marriages is growing. According to **UN** report, there are currently 10 million women over the age of **35** in Pakistan waiting to get married. This highlights the severe issues related to marriage in Pakistan. There are several causes of delayed marriages like over-burden of dowry, high standards of educated girls, preference of good looks, man's financial instability, parents rigidity about cast, families conflict, man's escape from taking responsibility etc. These causes have severe consequences like ~~an~~ increase of divorce rate, generational gap between parents and child, communication gap between parents and child, Aging of parents leads to poor parenting, anxiety and frustration issues, understanding problems between couples etc. A relevant awareness need to be addressed to people about the bad impacts of delayed marriages.
